

SHELTERED HOUSING RESIDENTS MEETING

Are you concerned about your security and care?

You are invited to a meeting where we can discuss the latest changes concerning Sheltered Housing and where a sympathetic solicitor will be able to discuss these matters with us as well as advise us without charge or obligation.

Great concern has been expressed by many residents at the changes to residential care and warden facilities. Residents say their lives have been disrupted and one 93 year old said "my life will not be worth living, with what's being done"

MEETING

**TUESDAY, 9TH DECEMBER, FROM 1PM TO 3PM.
EMMANUEL CHURCH, WESTON FAVELL.**

If you need transport or if you can volunteer the use of your car, or if you need further information then contact: Teddy on 01604 401518 or email tmcnabb40@yahoo.co.uk

Press Release/Statement

A recent article in a national publication 'Inside Housing' claimed that all was not going as planned with the warden situation within Sheltered Housing, and that a high profile solicitor was looking at the situation.

This week many in Northampton will have had the above leaflet coming through the letterbox.

It would appear that the momentum is building to put this situation right and according to many of the affected residents that is not a day to soon.

Protest has been expressed in many ways over the ages, but in sheltered housing today it is heard in the growing sound of elderly fingers drumming on pc keyboards.

If things are not changed in the way residential care and warden facilities are provided then the protest will grow and the tap tap of protest will build up to a thunderous pounding.

This leaflet has been distributed widely at:

Blackberry Lane
George Nutt Court
Parsons Meade
Arbury Road
Kelmscott Close
Goldcrest Court
Crestline Court
Sotheby Rise
Pennycress Place

This leafleting is ongoing up to 8th December

And other clusters in the housing stock will be posted, it is hoped that following the first meeting more contacts will be made and agree to deliver regular updates in their area.
